ARIHANT RECLAMATION

PVT LTD.

INTRODUCTION TO ARPL

Arihant Reclamation Pvt. Ltd. has been involved in Rubbers and chemicals business since 1990 and advanced into the Rubber Chemicals in February, 2017. We are one of the few players in this business to offer wide range of high quality rubber chemicals catering rightly to the industrial needs.

The background features a low-angle photograph of several tall skyscrapers reaching towards the sky. The image is partially obscured by large, dark blue geometric shapes, including triangles and a diagonal band, which create a modern, architectural feel. Thin white lines also intersect the composition, adding to the graphic design.

Due to our rich experience, customers tend to become regular buyers of our dependable rubber chemicals. We are recognized for our technical capabilities and competitive pricing with timely deliveries.

A low-angle, upward-looking photograph of several tall skyscrapers, creating a sense of height and modernity. The image is overlaid with a dark blue geometric design consisting of a diagonal line and a triangle in the bottom right corner.

We set up our new manufacturing facility in 2017 at Sonapat in Haryana, with a much improved technological process to strengthen our position in the field of Rubber Chemicals.

YEAR 2017

OUR TEAM

30 years and 2 generations
